

ROGER Access Control reference installations

We encourage access control installers to register systems based on ROGER's equipment. Registered systems will be listed on ROGER's Reference Installation List, which will be published on the company's website, and therefore it is essential to obtain system user's official permission.

Access control installers registering their systems will be put on ROGER's list of Certified Installers.

On the next page you will find registration form. In order to register access control system please fill in this registration form and sent back to ROGER company by post, fax (+48 55 272 0133) or e-mail (roger@roger.pl).

All details of registered system will remain confidential.

Thank you for cooperation.
