

QUICK START GUIDE

Export data and events to T&A

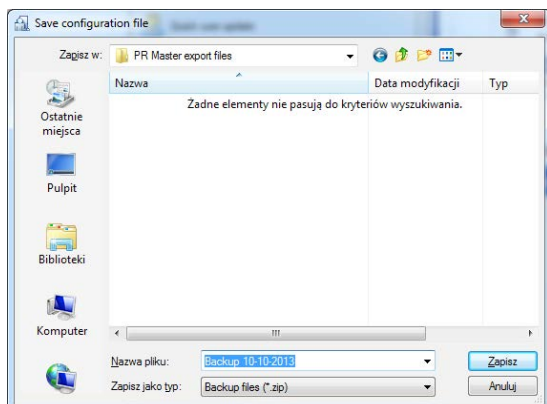

To export data (eg. new employees) and T&A events follow the steps below:

I. DATA EXPORT TO FILE (*.zip)

1. To export data to file (*.zip) choose „File -> Export system settings to file...” from menu.

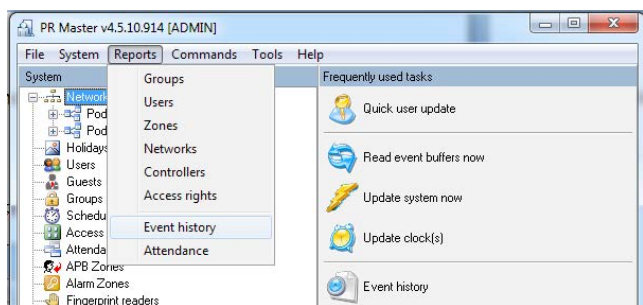

2. New window will appear Save configuration file
3. In a new window show the catalogue, where you want to save the file
4. In a File name field enter the file name you want to save it
5. Do not change Save as field, leave Backup files (*.zip)

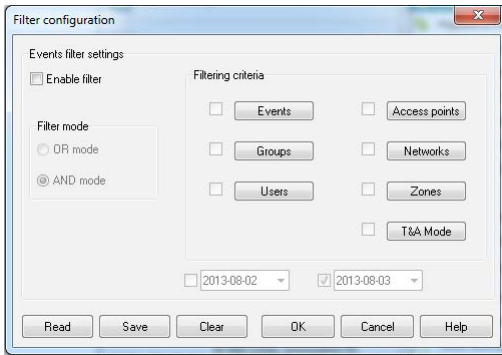

6. Click Save to create file

I. T&A EVENTS EXPORT TO FILE (*.RCP)

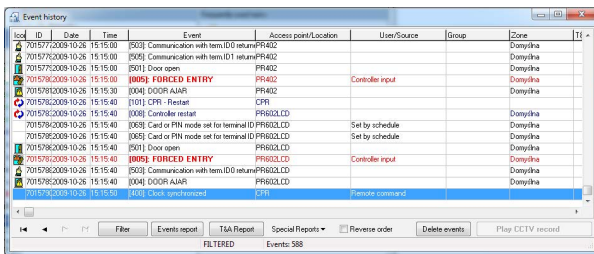

1. Choose Reports -> Event history from menu

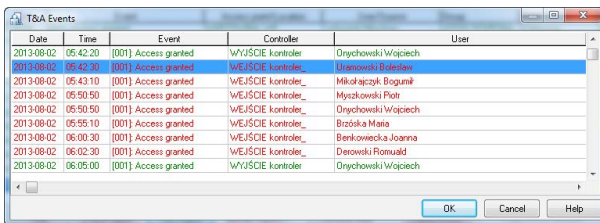

2. Choose the proper time range in Filter configuration window and click OK

3. In a window Event history choose T&A Report

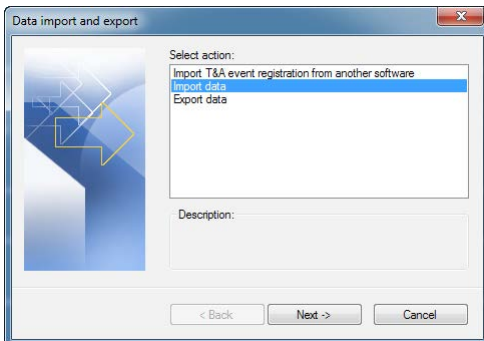

4. You will see T&A events window containing events related to T&A only (regular access control events will be removed). Click OK and save your file.

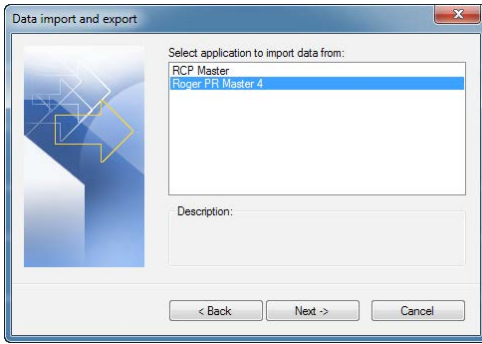

To import new data (eg. new employees) and T&A events list to RCP Master proceed with the following steps:

I. IMPORTING DATA

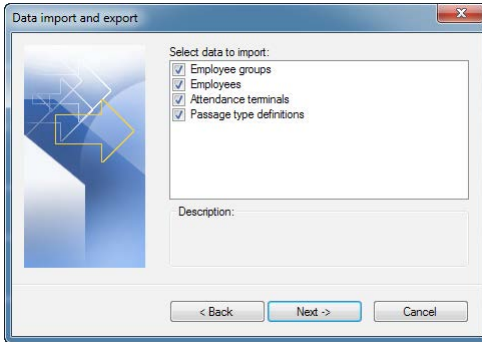

1. From menu File choose Import and export...
2. Choose Import data and click Next ->

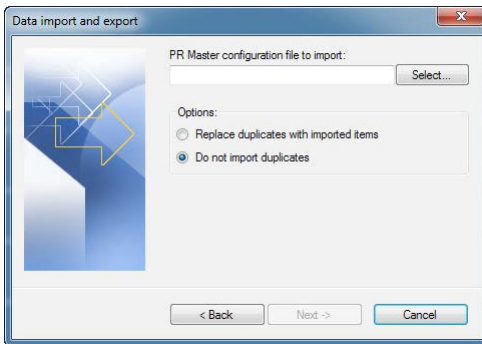

3. Select Roger PR Master 4 and click Next ->

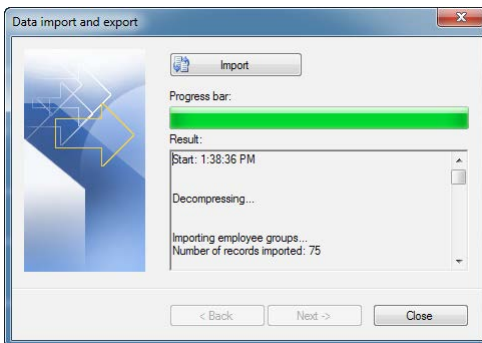

4. In the next window select all data you wish to import and click Next ->

5. Select configuration file (*.zip) created in PR Master and click Next ->

6. Click Import to start importing required data ->

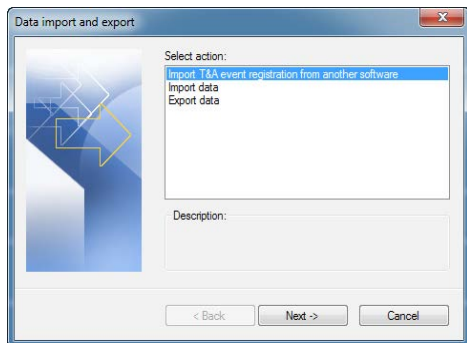

7. After the end of the import procedure click Close to exit ->

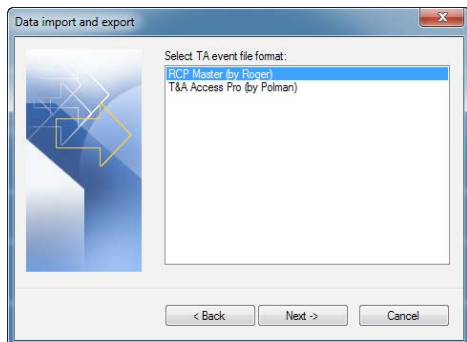

II. IMPORTING EVENTS

1. From menu File choose Import and export...

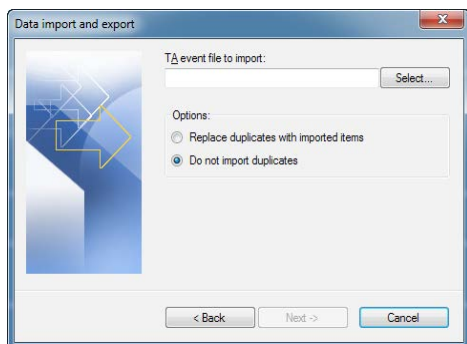

2. Choose Import T&A event registration from another software and click Next ->

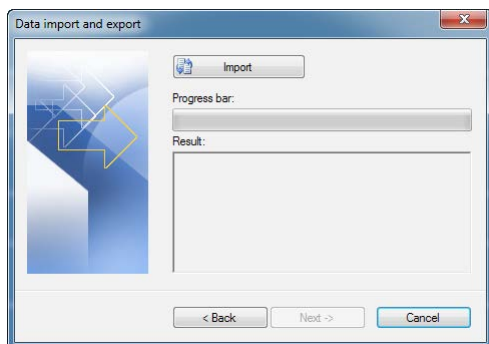

3. In the next window select RCP Master (by Roger) and click Next ->

4. Select file with T&A events (*.rcp) and click Next ->

5. Click Import to start importing T&A events.

6. After the end of the import procedure click Close to exit.
