

Roger PIN Generator (RPG) is a mobile application for iOS and Android systems that allows you to generate PIN codes, modify user account settings on the rps.roger.pl website and configuration settings of electronic locks with the ability to work with remotely generated PIN

codes (e.g. ADL-2). The RPG application does not fully replace the functionality of the rps.roger.pl website, which is used to manage locks with a remote method of generating PIN codes, and only offers some of its capabilities.

Roger PIN Generator

List of supported devices:

ADL-2

- electronic lock
- remote generation of PIN codes
- access by PIN, proximity card or Android/iOS mobile phone
- four AAA battery supply

Ordering guide
